Used Oil Annual Re-Certification

AWS' Used Oil Management Policy requires all Used Oil generators to annually re-certify that their Used Oil waste streams are not a Hazardous Waste to satisfy the Rebuttable Presumption for Used Oil contained in 40CFR Part 279.

Certification

I certify that the process generating Used Oil subject to AWS Profile # _____ has not changed and that the Used Oil is not a Hazardous Waste, nor has it been mixed with a Hazardous Waste.
