Advanced Waste Services Names Anthony Cialella VP/Energy Services

September 8, 2011: Advanced Waste Services, Inc., the Milwaukee, Wisconsin-based industrial waste collection, transportation and treatment firm, named Anthony Cialella as its Vice President of Energy Services. In this role, he will focus on the substantial environmental and recycling growth opportunities related to the natural gas drilling activities within the Marcellus and Utica Shale Plays. Based at AWS' New Castle, Pennsylvania facility within the Marcellus Shale Play, Mr. Cialella is well-tuned to the Energy activities throughout the area. "We are confident that committing Anthony's efforts completely to this opportunity will be key to substantial growth for us within the Energy sector," said CEO Mike Malatesta.

Advanced Waste Services, Inc. is an environmental services firm specializing in non-hazardous and hazardous waste collection, transportation, disposal and on-site cleaning services to commercial, manufacturing and energy-producing clients. Headquartered in Milwaukee, Wisconsin, Advanced Waste Services operates full-service waste collection and non-hazardous waste processing facilities in Milwaukee, Rockford, Illinois, Portage, Indiana, Cedar Rapids, Iowa and New Castle, Pennsylvania.

Advanced Waste Services of PA is the only full-service environmental provider in the Marcellus Shale that can provide single-source, turn-key wastewater treatment for disposal or re-use, residual waste processing, on-site wastewater treatment, confined space entry, sludge removal and other well pad services. AWS of PA provides Re-Use & Return wastewater treatment services for all Marcellus, Utica and shallow well drilling, flowback and production wastewaters with capacity up to 200,000 gallons per day.
